GUARDIAN 6000™

- **Six self-replenishing tubes** give highest change capacity and utmost flexibility.
- **Single payout configuration** covers all price points. It also supports 20% more unit sales than competitor's best configuration.
- **Cash accountability** plus adjustable tube fill indicators give quick coin level verification and coin activity report.
- Industry proven **single motor ratchet drive payout**. Fewest parts for long life and reliable operation.
- **Coinless field tuning**: no need to drop coins or tokens in the field.
- Standard **data port** for quick software updates and coin/token additions.

Six tube design

- **Relevant information**. Clear, concise communication of the data you need when you need it.
- **Intuitive LCD menu** layout and navigation.
- **Flexible menu system** to meet your specific operational needs.
- **Visual & audible status notification** ensure optimal system operation and maximum time in service.

Relevant information

- **Swing-out payout cassette** for swift coin loading without cassette removal.
- **Faster parring**. Guardian 6000™ anticipates and guides each step in the fill process.
- **Payout illumination** ensures accurate coin loading. Light doubles as system status indicator.

Swing-out illuminated cassette
