

MagPro™ BILL ACCEPTORS

Coinco's new MagPro bill acceptor features increased acceptance rates, longer life and greater reliability.

SUPERIOR PERFORMANCE FEATURES & BENEFITS

- New, spherical I-frame increases bill acceptor reliability and reduces bill handling errors.
- State-of-the-art software enhances bill handling.
- New, illuminated inlet captures customer's attention for more vends.
- Unique operating system resists counterfeiting by subjecting each bill to two types of tests: Optical and Magnetic, unlike other bill acceptors.
- Increases profits due to Coinco's high acceptance of valid bills including wet, torn and damaged bills.

MagPro

- Offers superior bill handling and increased acceptance.
- Accepts all new bills.
- Programmable for future currency changes.
- Simple switch selects bill denominations: \$1.00 / \$2.00 / \$5.00 / \$10.00 / \$20.00
- Protects from losses and damage due to "pull-back" and salting.
- Easy-cleaning, snap-in modules, for on-the-spot service.
- Accepts Mag coupons.

For a
changing
world

MagPro™ SERIES BILL ACCEPTORS

For Full Line Vending Machines

MAG32R / MAG52R / MAG72R

Easy to install. With serial electronic interface for 24 volt snack, sandwich and electronic beverage machines. Includes the MDB-plus® interface.

MAG32SA / MAG52SA

Same as MAG32R, except with side or remote mounted control box, to fit your installation requirements.

MAG30SA / MAG50SA

Same as MAG32SA. For use in vending machines with 110 volt serial interface.

For Cold Drink Vending Machines

MAG30B / MAG50B

High-level, 110 volt, pulse interface, and the MDB-plus® interface, for use on conventional, electromechanical machines, and also on new electronic machines. Has side or remote mounted control box to fit your installation requirements.

MAG32BX / MAG52BX

MDB-only version of the MAG30B

Optional Bill Box Capacities

MAG30

MAG30 bill acceptors have a bill capacity of 300 bills. This standard unit will fit in all standard vending machines.

MAG50

MAG50 bill acceptors have a bill capacity of 500 bills. The Mag50 may require security doors and inner door "knock-outs" to be removed.

MAG70

MAG70 bill acceptors have a bill capacity of 700 bills. This bill acceptor is uniquely designed for your special high capacity needs.

IMPORTANT:

Using large bill boxes in vending machines not equipped for the additional capacity may result in damage to the bill acceptor.
