

MEI® series 2000 4-in-1 validator

4 ways to pay!

1 Contactless card acceptance

2 Traditional card-swipe acceptance

3 MEI promotional coupon acceptance

4 Cash: 4-way bill acceptance

First in the industry!

The new MEI® series 2000 4-in-1 validator adds the capability of **contactless technology** to traditional swipe credit/debit card, bill and coupon acceptance. It is another option in the broad family of MEI cash and cashless bill validators, and easily integrates with the MEI EASITRAX® vending management solution.

MEI built on its successful Combo Acceptor product to create an innovative solution designed to provide maximum benefit for vending and amusement operators. This integration of transaction methods *in one product* offers consumers the broadest choice in payment options.

MEI® series 2000 4-in-1 validator

Consumer- and operator-friendly features make the MEI series 2000 4-in-1 validator ideal anytime, anywhere.

First in the industry!

- Adds the capability of contactless technology, along with traditional swipe method of credit/debit card acceptance

- Also accepts bills and MEI promotional coupons

Convenient payment

- Gives consumers more choices for making purchases by accepting credit cards, debit cards, cash and MEI coupons
- Features the MEI series 2000; with over 2 million sold, it's the industry's best bill validator
- Allows consumers to easily cancel a transaction with the touch of one button

Increase sales and site retention

- More payment options means fewer consumers walk away due to a lack of cash
- Convenience of payment results in greater volume of sales and increased site retention

Compatible with other systems

- Existing payment systems
- Vending management software systems
- MDB/DEX
- Interfaces with MEI EASITRAX remote data port or equivalent

High-contrast display

- Easily visible in bright light to darkness for flexible placement
- Explains all activity with easy-to-read two-line display
- Operates over full vending temperature range

Installs easily

- Fits existing mountings where MEI series 2000 full face bill validators are used
- No additional openings to cut
- No need to choose between a bill validator and card reader

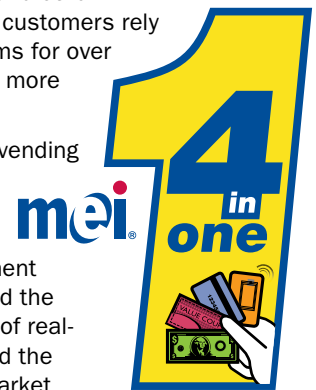

Resists coins and debris

- Swipe-style credit card reader and bill path resist inadvertent coin insertion
- Self-clearing swipe design resists debris

Why choose MEI?

MEI is one of the world's leading manufacturers of electronic bill validators, coin mechanisms and other electronic payment systems. Our customers rely on MEI electronic payment systems for over 2 billion transactions per week in more than 100 countries.

With 40 years' experience in the vending and amusement industries, we continue to focus on building innovations that benefit operators and bottlers. MEI payment systems' technology is considered the most reliable choice in hundreds of real-world applications and has earned the best performance rating in the market.

The vending and amusement industries have seen a significant growth in cashless transactions over the past several years. Credit and debit card payment systems are rapidly becoming an important consumer payment option. Call 800-345-8215 today or visit www.meigroup.com to see how the MEI series 2000 4-in-1 validator can increase your customers' satisfaction and your bottom line.
